

# **Tabernacle Baptist Church Community Tutoring Program**

Beginning Tuesday September 7<sup>th</sup> 2010 right after Labor Day

To Register: Call Tabernacle Baptist Church 919-781-4600

As part of the Leesville community Tabernacle Baptist Church is offering an after-school community tutoring program at Tabernacle Baptist Church. This program is provided as a ministry to the community at no cost. However, it is necessary to register with the church or the director of the program.

*How is tutoring a ministry?* It is obvious that we have a responsibility as a church to teach our children and community who wish to know, about God, about God's wisdom, and God's grace through Jesus Christ. Freely sharing the knowledge and time that we have been blessed with is a demonstration of God's grace and is in itself a ministry. By offering our after-school tutoring program aimed at complementing the school's present programs we bring well qualified Christian volunteers who are willing to focus along with parents on improving your child's school work through instruction, encouragement, and engagement, to help build success in their educational and spiritual life.

*How do I register?* Simple, call the church or director and tell them that you would like to enroll your child/student in the after-school tutoring program. You will be asked for information on yourself, your child, the area and topic tutoring is requested.

*What happens after that?* The church or director will match you and your child/student with a member of the church who has agreed to tutor in the particular area and topic, the tutor will make contact with you and arrange a time for an initial tutoring session with you and your child/student.

*What do we do after the initial session?* After the initial session the parent, the child/student, and the tutor will decide on several factors. First if there is a match, since successful tutoring is relationship based it is important for all parties to meet. The second step is to decide the time and frequency of tutoring. At any tutoring session the parent is welcome to stay while tutoring is in progress or wait in the gathering room of the church while tutoring is in progress. All sessions are carried out in an open door policy where as a parent you may freely monitor the session.

*What areas and grade levels is tutoring offered?* Tutoring is generally available in math, science, reading, and writing for the intermediate grades (3-5) and the middle school grades (6-8). In addition special requests may be made and as available filled for tutoring in high school level math and science.

Church Phone Number: 919-781-4600

Director: Dr. Lawrence James 919-523-1035
